ABOUT THE ARTIST

Madelaine Shenkel

"I want the viewer to recognize more than a likeness—to feel the spirit of the subject."

From intimate portraits and beloved animals to landscapes filled with atmosphere, Madelaine's work is grounded in realism and shaped by emotion. Each painting begins with careful observation and becomes a personal record of character, place, and memory.

Through her art, Madelaine seeks to capture the essence of her subjects—not just how they look, but how they make us feel. Her work reflects a deep appreciation for the beauty in everyday moments, the bond between people and animals, and the quiet power of the natural world.

Madelaine's paintings invite the viewer to slow down, look closer, and connect with the stories within each brushstroke.
